Five Themes and Six Essential Elements of Geography

Summarizing Apply the Elements of Geography to your local community. In the table below, describe the topics studied by each Element of Geography. Then give one example of each topic that a geographer would study or use to learn about your local community.

Element of Geography	What Does It Study?	Local Example
The World in Spatial Terms	The location of places on Earth.	12.
Places and Regions	13.	14.
Physical Systems	15.	16.
Human Systems	17.	18.
Environment and Society	19.	20.
The Uses of Geography	21.	22.

23. Identifying Which Element of Geography would you use to study the climate of an area and the animals that lived there?

24. Making Connections What geographic tools described in this lesson would help you understand The World in Spatial Terms?

Types of Maps

Categorizing List the standard parts of a map in the box below. Then describe the kind of information shown on each type of map in the other boxes.

25. Parts of a Map

26. Physical

27. Political

**Types
of Maps**

28. Special-Purpose

29. Identifying What part of a map helps you measure distance from one point to another?

30. Making Inferences What information might appear on both a physical and a political map?

Using Charts, Graphs, and Diagrams

Categorizing Describe each type of visual aid in the appropriate box below.

31. Charts

32. Diagrams

**Types of
Infographics**

Graphs

33. Bar Graphs

34. Line Graphs

35. Pie Graphs

36. Explaining What type of infographic is a cutaway drawing of a building?

37. Drawing Conclusions What type of graph would you choose to compare the populations of two cities in 2010? Why?
