Correcting a Partially Approved Timesheet

- Once you are logged back into the **Employee Portal**, go back to the timesheet you originally submitted.
- For any days that were approved by the customer, you will see the boxes grayed out in your timesheet. You cannot make any edits to these days.
- For days that were rejected, the system has reopened for you to **update with the corrected hours worked**.
- If possible, please **add a note in the Employee Comment box** to share with the customer.
- You must hit **Save** in order for the note to be submitted to the customer and documented in our system.
- When you are ready to resubmit your corrected timesheet, click **Submit Timesheet**.

The customer will receive an updated email with your corrected timecard to approve and send to payroll.

Resizing receipt images on mobile

Since current smart phones take pictures that are far greater in size than 800 KB, you will need to install an app that will downsize your pictures to make them suitable for upload to the web portal.

iPhone IOS

- 1 Go to the AppStore and search for **Image-Size**. Download the app to your iPhone IOS.

- 3 Take a picture of your receipt by selecting the camera icon. Focus the camera so it shows the entire receipt and take photo by clicking the white button.

- 5 The picture taken is resized automatically and in the red box below you can see that it was downsized to 174.05 KB automatically which is well below the 800 KB limit. Confirmation shows that the image was saved successfully.

- 2 Once you open the app, select **Allow** for the app to access your files/photos. To take a photo of your receipt, select **Allow** for the app to take pictures.

- 4 Touch the check mark to accept the picture. If you are not happy with the results, touch the curve arrow to the left of the check to start over.

- 6 Go back to the web portal, and upload screen touch by choosing Choose File (if asked allow the app to take picture and record video)

- 7 Under Recent file the picture just taken will be at the top. Touch it to include it in the upload. Once selected the file name will display after the Choose File button. Touch the Upload button to attach the image to your timescard. The message highlighted in the red box below will display after the image has been successfully attached to your timescard.
